<b>BMT Cord Blood Access Protocol</b>	<b>A Multicenter Access and Distribution Protocol for Unlicensed Cryopreserved Cord Blood Units (CBUs) in Pediatric and Adult Patients with Hematologic Malignancies and other Indications</b>	Treatment	<a href="#">Abdel-Mageed, Aly</a>	Laura Paulsen <a href="mailto:cancer.research@spectrumhealth.org">cancer.research@spectrumhealth.org</a> (616) 486-8500
<p><i>This is an access study in which umbilical cord blood used for bone marrow transplant is only available through this access and distribution study. In October 2011, the Food and Drug Administration (FDA) began considering cord blood as a biological drug. In the United States, drugs must meet standards set by the FDA to make sure they are safe. Cord blood units that were not collected, tested, or stored exactly according to FDA standards may be used for transplant if the transplant is done as part of a study.</i></p> <p><a href="#">For More Information</a></p>				
<b>NYBB UCB</b>	<b>A Multicenter Safety Study of Unlicensed, Investigational Cryopreserved Cord Blood Units (CBUs) Manufactured by the National Cord Blood Program (NCBP) and Provided for Unrelated Hematopoietic Stem Cell Transplantation of Pediatric and Adult Patients</b>	Treatment	<a href="#">Abdel-Mageed, Aly</a>	Laura Paulsen <a href="mailto:cancer.research@spectrumhealth.org">cancer.research@spectrumhealth.org</a> (616) 486-8500
<p><i>Umbilical cord blood used for bone marrow transplant which is only available through this access and distribution study. In October 2011, the Food and Drug Administration (FDA) began considering cord blood as a biological drug. In the United States, drugs must meet standards set by the FDA to make sure they are safe. Cord blood units that were not collected, tested, or stored exactly according to FDA standards may be used for transplant if the transplant is done as part of a study.</i></p>				

<b>GRAVITAS 309</b>	<b>A Phase 3 Study of Itacitinib or Placebo in Combination with Corticosteroids as Initial Treatment for Chronic Graft-Versus-Host-Disease</b>	Treatment	<a href="#">Brake, Sami</a>	Laura Paulsen <a href="mailto:cancer.research@spectrumhealth.org">cancer.research@spectrumhealth.org</a> (616) 486-8500
<b>ACCRU 2018-01</b>	<b>Blood sample Collection to Evaluate Biomarkers in Subjects with Untreated Solid Tumors</b>	Other	<a href="#">CRCWM Physician Investigators</a>	CRCWM (616) 391-1230 <a href="http://www.crcwm.org">www.crcwm.org</a>
<b>ACCRU 2018-02</b>	<b>Blood Sample Collection to Evaluate Biomarkers in Subjects with Untreated Hematologic Malignancies</b>	Other	<a href="#">CRCWM Physician Investigators</a>	CRCWM (616) 391-1230 <a href="http://www.crcwm.org">www.crcwm.org</a>

<b>Multiple Cord Blood</b>	<b>Allogeneic Stem Cell Transplantation Using Multiple Unrelated Donor Umbilical Cord Grafts</b>	Treatment	<a href="#">Abdel-Mageed, Aly</a>	Laura Paulsen <a href="mailto:cancer.research@spectrumhealth.org">cancer.research@spectrumhealth.org</a> (616) 486-8500
----------------------------	--	-----------	-----------------------------------	---

*This research study will evaluate the ability of umbilical cord blood cells, which have been obtained from multiple unrelated donors, to serve as a source of stem cells for patients undergoing stem cell transplant.*

*The use of a single unrelated umbilical cord blood unit is common for small pediatric patients requiring stem cell transplantation when a related or unrelated donor is not available. For larger patients, the use of more than one umbilical cord blood unit provides an adequate number of stem cells and increases the chances of successful engraftment and survival.*

---

<b>Brincidofovir</b>	<b>Expanded Access Protocol to Provide Brincidofovir for the Treatment of Serious Adenovirus Infection or Disease</b>	Symptom Management	<a href="#">Duffner, Ulrich</a>	Laura Paulsen <a href="mailto:cancer.research@spectrumhealth.org">cancer.research@spectrumhealth.org</a> (616) 486-8500
----------------------	---	--------------------	---------------------------------	---

*This study is an access protocol to provide treatment of the investigational drug called brincidofovir (or BCV for short) to treat the virus called adenovirus (or AdV).*
