

Digestive Disease Clinical Trials

Short Name	Full Title + Study Description	Type	Investigator	Contact
COLD 2019-334	Cold Endoscopic Resection of Large Colorectal Polyps: A Randomized Trial	Observational	Barber, Jeremy	Pamela Merrill Pamela.Merrill@spectrumhealth.org 616.391.9361
<i>The purpose of this trial is to compare safety and efficacy of two methods of endoscopic resection of large colorectal polyps: cold snare EMR (without electrocautery) vs. hot snare EMR (with electrocautery).</i>				
DIVERSITY 2019-694	Combined Phase 3, Double-blind, Randomized, Placebo-Controlled Studies Evaluating the Efficacy and Safety of Filgotinib in the Induction and Maintenance of Remission in Subjects with Moderately to Severely Active Crohn's Disease	Treatment	Shreiner, Andrew	Pamela Merrill Pamela.Merrill@spectrumhealth.org 616.391.9361
<i>The primary objective of this trial is to evaluate the effect of treatment with filgotinib on the induction and maintenance of clinical remission, as well as, endoscopic response in subjects with moderately to severely active Crohn's disease.</i>				
ETHICON 2019-712	A Prospective, Single-Arm, Multi-Center Study of the ECHELON Endopath™ Staple Line	Device	Schram, Jon	Pamela Merrill Pamela.Merrill@spectrumhealth.org 616.391.9361
<i>The purpose of this post-market trial is to evaluate safety following use of the ECHELON SLR in subjects undergoing indicated gastric procedures.</i>

Digestive Disease Clinical Trials

MSQC TME 2018-068	Validating Rectal Cancer Operative Reports and TME Grading	Observational	Ogilvie, James	Kendal VanDyke Kendal.VanDyke@spectrumhealth.org 616.486.0839
<p><i>The purpose of this trial is to develop written and web based teaching tools to educate surgeons and pathologists on how to grade TMEs and to improve documentation; to monitor operative reports and pathology reports for improvement of both rates and accuracy of grade assignment in order to determine efficacy of the teaching tools; and to evaluate the use of TME grade assignment as a hospital-level and surgeon-level quality measure in the MSQC database.</i></p>				
RICART 2018-139	<u>Randomized Trial of Intra-Corporeal Anastomosis for Right Colectomies</u>	Observational	Ogilvie, James	Pamela Merrill Pamela.Merrill@spectrumhealth.org 616.391.9361
<p><i>The purpose of this trial is to investigate whether minimally invasive right colectomies done with an intra-corporeal anastomosis result in quicker return of bowel function and earlier discharge.</i></p>
