

Short Name	Full Title + Study Description	Type	Investigator	Contact
Burn				
TXA Burn	<p>The Effect of Tranexamic Acid on Blood Loss and Transfusion Rates in Burn Wound Surgery - A Randomized, Double-blinded Placebo-controlled Trial</p> <p><i>The primary objective of this study is to determine the impact of perioperative administration of tranexamic acid on blood loss and transfusion rates in major burn surgeries.</i></p> <p>For More Information</p>	Treatment	<p>Steensma, Elizabeth</p>	<p>Steffen Pounders</p> <p>Steffen.Pounders@spectrumhealth.org</p> <p>(616) 391-1725</p>
Biorepository				
SHARE	<p>SHARE Biorepository - Spectrum Health Accelerator of Research Excellence</p> <p><i>SHARE is dedicated to supporting research projects that can lead to important health discoveries. Patients can participate by donating samples (like blood, urine, or tissue) during clinic visits, procedures, or hospitalizations, and almost all patients are eligible to participate. Collected samples are cataloged and stored in the biobank until they are connected with researchers to help us learn more about wellness and disease, and how to better prevent, diagnose, and treat illness.</i></p>	Biobanking	<p>Cottingham, Sandra</p>	<p>Spectrum Health Biorepository</p> <p>SHAREresearch@spectrumhealth.org</p> <p>(616) 486-1414</p>
Infectious Disease				
Brincidofovir	<p>Expanded Access Protocol to Provide Brincidofovir for the Treatment of Serious Adenovirus Infection or Disease</p> <p><i>This study is an access protocol to provide treatment of the investigational drug called brincidofovir (or BCV for short) to treat the virus called adenovirus (or AdV).</i></p> <p>For More Information</p>	Symptom Management	<p>Duffner, Ulrich</p>	<p>Laura Paulsen</p> <p>cancer.research@spectrumhealth.org</p> <p>(616) 486-8500</p>

Digestive Health

EoE Study	Past Trends and current state of management of eosinophilic esophagitis at a large regional medical center	Observational	Shreiner, Andrew	Tanisha Hill Tanisha.Hill@spectrumhealth.org (616) 486-5459
------------------	---	---------------	----------------------------------	--

This is voluntary research study being conducted to better understand the long-term management of eosinophilic esophagitis (EOE). This is being examined with by looking at retrospective data that relates to their diagnosis as well as through a prospective lens utilizing questionnaires.

IBD Qorus	Improving the Quality of Care for Adults with Inflammatory Bowel Disease	Observational	Kaufman, Lia	Jessica Gallavin Jessica.Gallavin@spectrumhealth.org (616)486-7492
------------------	---	---------------	------------------------------	--

By December 2020, design, implement, and evaluate in up to 90 IBD care sites the key components of the IBD learning health system required to enable the feed-forward coproduction model of care.

RICART	<u>R</u>andomized trial of <u>I</u>ntra-<u>C</u>orporeal <u>A</u>nastomosis for <u>R</u>igh<u>T</u> colectomies (RICART study)	Observational	Ogilvie, James	Roberto Cannizzo Roberto.Cannizzo@spectrumhealth.org (616) 486-2051
---------------	---	---------------	--------------------------------	--

The purpose of this trial is to investigate whether minimally invasive right colectomies done with an intra-corporeal anastomosis result in quicker return of bowel function and earlier discharge.
