 Document Reviewed: 11/23/2020

This message is to inform Clinical and Environmental Services staff on product substitutions for disinfectants during the COVID-19 response.

Product substitutes will be used for common disinfectants. Each product substitute is listed on the EPA's List N for use against SARS-CoV-2, the virus that causes COVID-19.

Below are examples of products approved for use in patient-care areas. This is not an exhaustive list.
 Always follow the label's instructions for proper use and storage.

LN 850103: WIPE GERMICIDAL SANICLOTH SUPR	
	PDI Super Sani-Cloth Germicidal Disposable Wipe
	Ecolab Disinfectant 1 Wipe
	Diversey Oxivir TB <ul style="list-style-type: none"> • In ready-to-use wipe canister • In foil pack
