Seq. No	Task Description:	Key Point / Image / Measure (what good looks like)	Who
1	Patients arrive to ED triage through the ED entrance. All patients/visitors are required to wear masks.		
2	If during the initial triage the Travel Screen is positive for COVID symptoms. The patient will be brought to an open private room in the ED.	Per Infection Prevention: Appropriate co-horting of patient in the emergency department includes putting r/t COVID or COVID positive patients in a private room and keeping the door closed. Severe Respiratory Isolation Precautions will be initiated and remain as appropriate.
