

COVID-19 Newborn Algorithm – August 6, 2020 0900

Spectrum Health contact - Daliya Khuon, MD

Additional Scenarios:

- **If mother is asymptomatic & refuses testing**, do NOT treat as PUI per CDC recommendations.
- **If mother tested positive within last 90 days**, no repeat testing is indicated unless mother develops new symptoms. Mother is considered no longer contagious if she meets criteria for discontinuing COVID isolation (see Provider Guidelines for Discontinuation of Severe Respiratory Preucations).
