PPE Selection for Ambulatory Spaces 11.24.2020
1300
Spectrum Health Contact: Cathy Ostrowski
Document reviewed: 11.24.2020

**Applicable settings:** Ambulatory clinics, urgent care, home care, outpatient radiology, outpatient rehab and outpatient lab.

After patient screening follow the algorithm for PPE selection:

1. **Patient suspect or confirmed for COVID-19, per Epic screening tool**
   - **Yes**
   - **No**

2. **Ensure patient is masked prior to rooming**

   - **Eye Protection Mask** when within 6 feet of COVID suspect/positive patient for < 15 minutes
   - **Standard Isolation Mask** when within 6 feet of COVID suspect/positive patient for > 15 minutes
   - **N-95 respirator** when within 6 feet of COVID suspect/positive patient for > 15 minutes
