

COVID-19 PPE Selection 07.28.2020 1530

Spectrum Health Contact: Cathy Ostrowski

Applicable settings: Ambulatory clinics, urgent care, home care, outpatient radiology, outpatient rehab and outpatient lab

After patient screening follow the algorithm for PPE selection:

*Minimal contact: Limited exam, HCW does not anticipate contact with patient other than gloved hands, stethoscope, ultrasound wand, etc.

**Close contact: having close physical contact with patient, i.e. positioning patient, swabbing, bathing, etc.
