

Surgical Services COVID-19 Patient Testing

08.11.2020 0851

Spectrum Health contact Robin Finkbeiner

Elective surgery decision made by physician/surgeon

Office based surgical scheduler notifies need for COVID 19 testing 72 hours prior to DoS

4 business days prior to procedure, patient contacted by a RN to notify of testing logistics and order is placed for batch testing

Specimen will be collected from patient 72 hours prior to DoS and results will route to surgeon

24 hours prior to procedure, DoS report will be run for all next day patients COVID-19 test results
