1. PURPOSE

Employees of Spectrum Health are responsible to conduct all business actions with honesty, integrity and fairness. The purpose of this policy is to establish guidelines for giving and receiving gifts, meals, entertainment or other items of value.

2. Compliance Policy Definitions Log
- Gifts
- Cash or Cash Equivalent
- Educational Event

3. GENERAL

It is critical to avoid any impropriety when giving or receiving gifts from individuals who do business or are seeking to do business with Spectrum Health. Gifts or other incentives should never be used to improperly influence relationships or business outcomes. Relationships with vendors/contractors are intended to benefit our patients/members. Interactions should be focused on informing healthcare professionals and staff about products, providing scientific and educational information, and supporting medical education. Decisions made by Spectrum Health employees in the course of their work must be objective and based solely upon the best interest of Spectrum Health. They should never be influenced by personal gain or gain to any personal associate (friend or family).

Under no circumstances may an employee solicit a gift, meal or entertainment. Nothing should be accepted in exchange for purchasing/using products or for a commitment to continue using products. Nothing should be accepted that would interfere with a healthcare professional’s practice patterns or prescribing practices.

These guidelines apply at all times; they do not change during traditional gift-giving seasons or during the planning of a company event. It is important to remember that the judgment of each individual and
his/her up-line is vital as to whether a gift or entertainment might be compromising or is unreasonable.
