

Dear applicant,

Thank you for your interest in the Spectrum Health/Michigan State University College of Human Medicine Obstetrics and Gynecology Residency!

The OBGYN residents rotate through two main health systems in Grand Rapids, MI and gain a wide breadth of experience to become leaders in women's health. Residents have the unique opportunity to take part in family planning, midlife menopause and global health experiences, working closely with midwives and advanced practice providers. The medical business management learning experience began in 2021 and helps residents understand the business side of practicing medicine.

Chief residents have the exceptional opportunity to rotate through a regional hospital. This provides exposure to the health care needs in women in rural settings.

What makes us love the program is the fast paced, extremely busy and indisputably supportive environment in which we learn, grow and train; and the people we share this experience with. You will make life-long bonds with your colleagues, attendings, researchers, midwives, nurses and patients.

Despite the busy hours of residency, we take full advantage of living in West Michigan. As the second largest city in Michigan, Grand Rapids is an amazing place to work, live, play and explore. From brewery hopping in the city to hiking and boating on a lake, we never miss an opportunity to hang out with each other and our loved ones.

We are very proud of our residents and this program, and we are excited to share it with you. Please reach out to us at [GMEOBGYN2021@spectrumhealth.org](mailto:GMEOBGYN2021@spectrumhealth.org) with any questions, we look forward to meeting you!

With Best Regards,  
2021 Spectrum Health/MSU OBGYN Residency Chiefs
